Erika's Story Frances Lincoln

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays

which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

"A perfect pick for kids who love Rick Riordan." —Booklist (starred review) "A winner for all kids, but it will be especially loved by Latinx and Hispanic families." —Kirkus Reviews (starred review)

The Lightning Thief meets the Story Thieves series in this middle grade fantasy inspired by Hispanic folklore, legends, and myths from the Iberian Peninsula and Central and South America. Charlie Hernández has always been proud of his Latin American heritage. He loves the culture, the art, and especially the myths. Thanks to his abuela's stories, Charlie possesses an almost encyclopedic knowledge of the monsters and ghouls who have spent the last five hundred years haunting the imaginations of children all across the Iberian Peninsula, as well as Central and South America. And even though his grandmother sometimes hinted

that the tales might be more than mere myth, Charlie's always been a pragmatist. Even barely out of diapers, he knew the stories were just make-believe—nothing more than intricately woven fables meant to keep little kids from misbehaving. But when Charlie begins to experience freaky bodily manifestations—ones all too similar to those described by his grandma in his favorite legend—he is suddenly swept up in a world where the mythical beings he's spent his entire life hearing about seem to be walking straight out of the pages of Hispanic folklore and into his life. And even stranger, they seem to know more about him than he knows about himself. Soon, Charlie finds himself in the middle of an ancient battle between La Liga, a secret society of legendary mythological beings sworn to protect the Land of the Living, and La Mano Peluda (a.k.a. the Hairy Hand), a cabal of evil spirits determined to rule mankind. With only the help of his lifelong crush, Violet Rey, and his grandmother's stories to guide him, Charlie must navigate a world where monsters and brujas rule and things he couldn't possibly imagine go bump in the night. That is, if he has any hope of discovering what's happening to him and saving his missing parents (oh, and maybe even the world). No pressure, muchacho.

A clear-eyed look at what happens when everything we've been clinging to falls apart--what we keep, what we let go, and how we're transformed along the way. Just after her fortieth birthday, New York Times bestselling author Shauna Niequist found herself in a season of chaos, change, and loss unlike anything she'd ever experienced. She discovered that many of the beliefs and practices that had been useful up to that point no longer worked. After trying--and failing--to pull herself back up using the same old tools, she realized she required new ones: courage, curiosity, compassion, and self-compassion. She discovered the way through was more about questions than answers, more about forgiveness than force, more about tenderness than trying hard. I Guess I Haven't Learned That Yet is a journey of both unlearning

what is no longer helpful, embracing curiosity, and accepting the unknowns of midlife, heartbreak, and chronic pain. Niequist writes with characteristic candor and grace about the challenges and delights of a move from the Midwest to Manhattan, and also the challenges and delights of releasing our expectations for how we thought our lives would look. Follow Niequist on her journey to understand grief, to reshape her faith, to practice courage when all she wanted to do was hide. This is a book about learning how to live in a new city, learning how to get back up, and learning how to trust God's goodness in a deeper way.

The Hiding Place Magical Adventures of the Wors
Between May 15 and July 9, 1944, over 440,000 Hungarian Jews were deported and, most were murdered at Auschwitz-Birkenau. The sole exception was the Jews in Budapest. In October 1944, Nazi Lieutenant Colonel Adolf Eichmann, with the eager assistance of the Hungarian fascist Arrow Cross party, initiated plans to finish off the Jews of Budapest even as the Soviet Red Army was rapidly advancing, and ultimately laid siege on Budapest in December 1944. This is the story of how one Jewish boy and 400 others were protected in a "yellow star house." The house was converted into a hospital run by Jewish doctors designed to treat everyone -- even their wounded enemies, free of charge. The Jewish residents were ultimately saved in this way by a man who posed as an Arrow Cross officer and risked his own life countless times while over 70,000 Jews were being murdered at the Danube or dying in ghettos. The Yellow Star House is a

story of courage, family, hope, rescue and luck. It is unforgettable
