Winner of the 2016 Book Award from the American Society of Criminology, Division of Critical Criminology. In this book, Carrie L. Buist and Emily Lenning reflect on the origins of Queer Criminology, survey the foundational research and scholarship in this emerging field, and offer suggestions for the future. Covering topics such as the criminalization of queerness; the policing of Queer communities; Queer experiences in the courtroom; and the

correctional control of Queer people, Queer Criminology synthesizes the work of criminologists, journalists, legal scholars, non-governmental organizations, and others to illuminate the historical and contemporary context of the Queer experience. Queer Criminology offers examples of the grave injustices that Queer people face around the world, particularly in places such as Russia, Kyrgyzstan, England, India, Thailand, Nigeria, and the United States. These injustices include, but are not limited to, selective enforcement, coerced confessions, disproportionate sentencing, rape, extortion, denial of due process, forced isolation, corporal punishment, and death. By highlighting a pattern of discriminatory, disproportionate, and abusive treatment of Queer people by the criminal legal system, this book demonstrates the importance of developing a criminology that critiques the heteronormative systems that serve to oppress Queer people around the world. Buist and Lenning argue that criminology is incomplete without a thorough recognition and understanding of these

Queer experiences. Therefore, Queer Criminology is a vital contribution to the growing body of literature exploring the Queer experience, and should be considered a necessary tool for students, scholars, and practitioners alike who are seeking a more just criminal legal system. *The Intractability Malleability Thesis* SAGE In Diversity, Crime, and Justice in Canada hate-crime specialist Barbara Perry brings together 17 of the country's leading scholars to address issues of inequality as they intersect with crime and social justice. Students will discover how collective identities - not just of race, class, and gender, but of religion, ability, sexuality, age - play a crucial part in determining the nature of an individual's encounter with the criminal justice system. Integrating themes of history and context, power and powerlessness, and social and political action throughout, the text examines the concept of difference, the specific issues that different groups face with respect to the justice system, and the kinds of reform necessary to mitigate inequalities. Thoroughly

updated throughout, the second edition includes new pedagogical features that immerse students in the practicalities of criminal and social justice. The "Making a Difference" activity at the end of each chapter encourages students to create social change, and the new "Case Study" boxes explore a range of current and historical cases. The addition of a striking new visual program ensures that the second edition of *Diversity, Crime, and Justice in Canada* will be an invaluable resource for any course that examines social inequality in relation to the Canadian criminal justice system. *Race and Criminal Justice* Prentice Hall

This Handbook presents current and future studies on the changing dynamics of the role of immigrants and the impact of immigration, across the United States and industrialized and developing nations. It covers the changing dynamics of race, ethnicity, and immigration, and discusses how it all contributes to variations in crime, policing, and the

overall justice system. Through acknowledging that some groups, especially people of color, are disproportionately influenced more than others in the case of criminal justice reactions, the “War on Drugs”, and hate crimes; this Handbook introduces the importance of studying race and crime so as to better understand it. It does so by recommending that researchers concentrate on ethnic diversity in a national and international context in order to broaden their demographic and expand their understanding of how to attain global change. Featuring contributions from top experts in the field, The Handbook of Race and Crime is presented in five sections—An Overview of Race, Ethnicity, Crime, and Justice; Theoretical Perspectives on Race and Crime; Race, Gender, and the Justice System; Gender and Crime; and Race, Gender and Comparative Criminology. Each section of the book addresses a key area of research, summarizes findings or shortcomings whenever possible, and provides new results relevant to race/crime and justice. Every contribution is written by a top expert

in the field and based on the latest research. With a sharp focus on contemporary race, ethnicity, crime, and justice studies, The Handbook of Race and Crime is the ideal reference for advanced undergraduate students, graduate students, and scholars interested in the disciplines such as Criminology, Race and Ethnicity, Race and the Justice System, and the Sociology of Race.

Investigating Diversity in German Police Forces
Routledge

We elect officials in hopes that they will make our communities safer, yet their widely-endorsed law enforcement strategies have little effect on crime rates. Active crime prevention must take into account the diversity of crimes and criminals. High-quality evaluation research designs are needed to convince scholars, policy makers, and practitioners about the effectiveness of crime prevention techniques. Building a Safer Society, the most comprehensive exposition of research and experience concerning crime prevention ever published, offers a new conceptualization of the subject incorporating developmental,

community, situational and law enforcement approaches. This timely collection will especially interest scholars in law, criminal justice, public policy and public administration.

"Multiculturalism, Crime, and Criminal Justice provides a clear overview of the most controversial issues facing African Americans, Hispanics, women, and the LGBTQ community among others as offenders, victims, and practitioners within the context of the criminal justice system"--

Diversity of Method, Medium, and Communication SAGE

The scope of criminal justice has to include the body of equal norms which have to be protected. The basic elements of authoritarianism, universality, complementarity, and pluralism should not be employed by superior powers and enforced within the procedures and values of our criminal charter. A pure criminal jurisdiction ought to have its own independent honour and its own unified diverse values including: righteousness, innocence, virtue,

honesty, and the preservation of objectivity in legal judgments. At the same time, the notion of diversity should not create an artificial equality in place of authentic, dynamic protection. It is of no essential significance which criminal justice measures are exercised by a court if the rulings of the court are based on clear evidence, and most importantly, if the court has not granted immunity for major criminals through impunity as a result of corrupt proceedings. It is the independent character of criminal justice which earns it its high level of respect. The existence of pure values is the natural and essential requirement for a court and allows it to be qualified as a body with ethical and moral character. A court should not be run through the threat of force or through monopolisation, but rather with trust. Furthermore, the courts are morally required to resist enmeshing themselves in the authoritarian exploitation of criminal justice. Working towards this goal should be imperative in the mechanism of criminal jurisprudence. This is the most plausible method for

decreasing the number of victims of core international crimes and achieving pluralist values of diversity.

Being a Community

Activist Routledge
This book is not an impersonal academic treatise on social justice activism but instead the author's description of what social justice activism has looked like through the prism of his eyes. The methods of the book are straightforward, using historical, current and personal data--all of which were inextricably entwined. The text focuses on the truth that bigotry is perpetuated by countless white, black and brown people. More important than academic debates about bigotry, the book is about negating or preventing bigotry. The author reviews historical incidents and also tells portions of his own life stories. His goal is to help readers know his perceptions of bigotry and then compare and contrast his perceptions with their own. The text is organized in major topics: Beginnings of Bigotry; Creation of a Nation; Migrants, Immigrants and Slaves; Quest for Civil Rights; Women's Rights Movement; Disability

Rights Movement; Elder Rights Movement; LGBTQ Rights Movement; Social Class Matters; and Going Forward. This book is written to be actively read and to initiate meaningful conversations about social justice. The primary audiences for the text are college students who are majoring in social and behavioral sciences, social work and health care. The book will also be a valuable resource to teachers, community activists, and other persons who want to enhance their knowledge of racism, sexism, homonegativity, ableism, ageism, xenophobia and classism.

This book is concerned to explore the changing role of the Parole Board across the range of its responsibilities, including the prediction of risk and deciding on the release (or continued detention) of the growing number of recalled prisoners and of those subject to indeterminate sentences. In doing so it aims to rectify the lack of attention that has been given by lawyers, academics and practitioners to back door sentencing (where the real length of a sentence is decided by those who take the decision to release) compared to front door sentencing' (decisions taken by judges or magistrates in court). Particular attention is given in this book to the important changes made to the role and working of the Parole Board as a result of the impact of the early release scheme of the Criminal Justice Act 2005, with the Parole

Board now deciding in Panels concerned with determinate sentence prisoners, lifers and recalled prisoners. A wide range of significant issues, and case law, has arisen as a result of these changes, which the contributors to this book, leading authorities in the field, aim to explore.

The Rising Tide of Bigotry and Bloodshed National Academies Press

This book provides a unique conceptualization of: 1) embodiment as a lived aspect of gender, 2) how masculine practices may be constructed by both boys and girls, 3) how such embodied social actions are related to violence and nonviolence, and 4) the fallacy of the mind-body, sex-gender, and gender difference binaries.

A Study on the Causes and Consequences of Non-consensual Nude or Sexual Imagery John Wiley & Sons

This book investigates the causes and consequences of image-based sexual abuse in a digital era. Image-based sexual abuse refers to the taking or sharing of nude or sexual photographs or videos of another person without their consent. It includes a diversity of behaviours beyond that of

"revenge porn", such as the secret trading of nude or sexual images online; "upskirting", "downblousing" and other "creepshots"; blackmail or "sextortion" scams; the use of artificial intelligence to construct "deepfake" pornographic videos; threats to distribute photographs and videos without consent; and the taking or sharing of sexual assault imagery. This book investigates the pervasiveness and experiences of these harms, as well as the raft of legal and non-legal measures that have been introduced to better respond to and prevent image-based sexual abuse. The book draws on groundbreaking empirical research, including surveys in three countries with over 6,000 respondents and over 100 victim-survivor and stakeholder interviews. Guided by theoretical frameworks from gender studies, sociology, criminology, law and psychology, the authors argue that image-based sexual abuse is more commonly perpetrated by men than women, and that perpetration is higher among some groups, including younger and sexuality minority men.

Although the motivations of perpetrators vary, a dominant theme to emerge was that of power and control. The gendered nature of the abuse means that it is best understood as a "continuum of sexual violence" because victim-survivors often experience it as part of a broader pattern of gendered harassment, violence and abuse. Written in a clear and direct style, this book will appeal to students and scholars of criminology, sociology, law and psychology. Image-based Sexual Abuse is also an essential resource for activists, legal and policy practitioners, technology companies and victim-survivors seeking to understand the deeply complex nature of intimate-image sharing in a digital era. Hate Crimes SAGE Written by two of the most prominent criminologists in the field, Race and Crime, Fourth Edition examines how racial and ethnic groups intersect with the U.S. criminal justice system. Award winning authors Shaun L. Gabbidon and Helen Taylor Greene provide students with the latest data and research on White, Black,

Hispanic/Latino, Asian-American, and Native American intersections with the criminal justice system. Rich with several timely topics such as biosocial theory, violent victimizations, police bias, and immigration policing, the Fourth Edition continues to investigate modern-day issues relevant to understanding race/ethnicity and crime in the United States. A thought-provoking discussion of contemporary issues is uniquely balanced with an historical context to offer students a panoramic perspective on race and crime. Accessible and reader friendly, this comprehensive text shows students how race and ethnicity have mattered and continue to matter in the administration of justice.
