No musical genre has had a more chequered critical history than the concerto and yet simultaneously retained as consistently prominent a place in the affections of the concert-

going public. This volume, one of very few to deal with the genre in its entirety, assumes a broad remit, setting the concerto in its musical and non-musical contexts, examining the concertos that have made important contributions to musical culture, and looking at performance-related topics. A picture emerges of a genre in a continual state of change, re-inventing itself in the process of growth and development and regularly challenging its performers and listeners

to broaden the horizons of their musical experience.

Violin Sonata Op.82 - For Violin and Piano Violin Concerto in B Minor Cello Concerto in E Minor (cassette). Elgar's Cello

Concerto in E Minor, Op. 85 Edward Elgar's Cello Concerto in E minor, Op. 85, his last notable work, is a cornerstone of the solo cello repertoire. Elgar composed it in the aftermath of the First World War, when his music had already gone out of fashion with the concert-going public. In contrast with Elgar's earlier Violin Concerto, which is lyrical and passionate, the Cello Concerto is for the most part contemplative and elegiac. 1. Adagio -- Moderato (approx. 8:00)

(Elgar Studies , Scolar Press, 1990) seeks to reflect many aspects of the life and work of the great English composer. Each essay is self-contained but the strong literary thread running through most of them suggested the title of the collection. Many of the contributors to the earlier volume are again represented.
Gramophone Records of the First World War Oxford University Press "The Facts On File Dictionary of Music provides in-depth

explanations and examples of more than 3 **A Creative Life** Rowman & Littlefield Since the eighteenth century, violin concertos have provided a showcase for dramatic interplay between a soloist's virtuosity and the blended sonority of an orchestra's many instruments. Using this genre to showcase skill and ingenuity, composers cemented the violin concerto as a key genre of classical music and gifted our ears with such timeless masterpieces as Vivaldi's

Four Seasons. In *Experiencing the Violin Concerto*, Franco Sciannameo draws on his years of scholarship and violin performance to trace the genre through Baroque, Classical, and modern periods. Along the way, he explores the social and personal histories of composers, and the fabulous virtuosos who performed concertos, and audiences they conquered worldwide. Inviting readers to consider not only the components of the music but also the power of

perception and experience, Sciannameo recreates the atmosphere of a live performance as he paints a narrative history of technique and innovation. *Experiencing the Violin Concerto* uses descriptions in place of technical jargon to make the world of classical music accessible to amateur music lovers. As part of the *Listener's Companion* series, the volume gives readers an enhanced experience of key works by investigating the environments in which the

works were written and first performed as well as those in which they are enjoyed today.

What does it mean to perform expressively on the cello? In *Cello Practice*, Cello Performance, professor Miranda Wilson teaches that effectiveness on the concert stage or in an audition reflects the intensity, efficiency, and organization of your practice. Far from being a mysterious gift randomly bestowed on a lucky few,

successful cello performance is, in fact, a learnable skill that any player can master. Most other instructional works for cellists address techniques for each hand individually, as if their movements were independent. In *Cello Practice, Cello Performance*, Wilson demonstrates that the movements of the hands are vitally interdependent, supporting and empowering one another in any technical action. Original exercises in the fundamentals of cello

playing include cross-lateral exercises, mindful breathing, and one of the most detailed discussions of intonation in the cello literature. Wilson translates this practice-room success to the concert hall through chapters on performance-focused practice, performance anxiety, and common interpretive challenges of cello playing. This book is a resource for all advanced cellists—college-bound high school students, undergraduate and graduate students,

educators, and professional performers—and teaches them how to be their own best teachers.

The Crown of India

London : J.M. Dent

The first full-length study of the English composer's complex interaction with his physical environment, and its new relevance in the 21st century. More perhaps than any other composer, Edward Elgar (1857-1934) has gained the status of an "icon of locality," his music seemingly inextricably linked to the English

landscape in which he worked. This, the first full-length study of Elgar's complex interaction with his physical environment, explores how it is that such associations are formed and whether it is in any sense true that Elgar alchemized landscape into music. It argues that Elgar stands at the apex of an English tradition, going back to Blake, in which creative artists in all media have identified and warned against the self-harm of environmental degradation and that,

following a period in which these ideas were swept away by the swift but shallow tide of Modernism in the decades after the First World War, they have since resurfaced with a new relevance and urgency for twenty-first century society. Written with the non-specialist in mind, yet drawing on the rich resources of post-millennial scholarship on Elgar, as well as geographical studies of place, the book also includes many new insights relating to such

aspects of Elgar's output as his use of landscape typology in *The Apostles*, and his encounter with Modernism in the late chamber music. It also calls on the resources of contemporary social commentary, poetry and, especially, English landscape art to place Elgar and his thought in the broader cultural milieu of his time. A survey of recent recordings is included, in the hope that listeners, both familiar and unfamiliar with Elgar's music, will feel inspired to

embark on a voyage of (re)discovery of its endlessly rewarding treasures.

This book examines 43 great concerti and discusses, in detail, the technical, aural, rehearsal, and intra-personal skills that are required for "effortless excellence." Maestro Itkin wrote this book for conductors first encountering the concerto repertoire and for those

wishing to improve their skills about this important, and often understudied, literature. Often misunderstood is the fact that both the physical technique and the score study process require a substantially different and more nuanced approach than with the major symphonic repertoire. In short, this is the book that Itkin wished had been available when he was a student and young professional. "This book is truly wonderful, lucid and intelligent. Would that many of

Maestro Itkin's colleagues devoted such attention to mere concerti!"--Misha Dichter "This is a 'must own' book for any conductor or conducting student."--Samuel Adler, Professor of Composition, the Juilliard School "By concentrating on familiar pieces, David Itkin is offering a valuable textbook for the aspiring maestro. He gets right to the heart of this important facet of the conductor's art. Highly recommended."--Leonard Slatkin

1,000 Recordings to Hear Before You Die

Newton Abbot ; Vancouver : David and Charles

The musical adventure of

a lifetime. The most exciting book on music in years. A book of treasure, a book of discovery, a book to open your ears to new worlds of pleasure.

Doing for music what Patricia Schultz—author of the phenomenal 1,000 Places to See Before You Die—does for travel, Tom Moon recommends 1,000 recordings guaranteed to give listeners the joy, the mystery, the revelation, the sheer fun of great music. This is a book both broad and deep, drawing from the diverse worlds of classical, jazz, rock, pop,

blues, country, folk, musicals, hip-hop, world, opera, soundtracks, and more. It's arranged alphabetically by artist to create the kind of unexpected juxtapositions that break down genre bias and broaden listeners' horizons— it makes every listener a seeker, actively pursuing new artists and new sounds, and reconfirming the greatness of the classics. Flanking J. S. Bach and his six entries, for example, are the little-known R&B singer Baby Huey and the '80s

Rastafarian hard-core punk band Bad Brains. Farther down the list: The Band, Samuel Barber, Cecelia Bartoli, Count Basie, and Afropop star Waldemar Bastos. Each entry is passionately written, with expert listening notes, fascinating anecdotes, and the occasional perfect quote—"Your collection could be filled with nothing but music from Ray Charles," said Tom Waits, "and you'd have a completely balanced diet." Every entry identifies key tracks,

additional works by the artist, and where to go next. And in the back, indexes and playlists for different moods and occasions.

This updated second edition is an in-depth exploration of Elgar's compositions and of writings by and about the composer and his music. The past 16 years have seen a steady increase in scholarly publications and the emergence of The Elgar Society Journal, as well as further discoveries of the composer's MSS and letters, and the new edition incorporates this latest research. The compositions are

examined in a work-by-work catalog, in chronological order, in which each entry gives a complete census and collation of manuscript, proof, text, biographical, printed edition and bibliographical sources for each item. The listing also includes unfinished sketches and details of much unpublished material. The bibliography

section covers selected established literature as well as details of reviews and articles contained in the European periodicals at the climax of Elgar's career. Christopher Kent was nominated unanimously by the Scrutiny Panel of the International Association of Music Libraries, Archives and Research Centres for the 2014 C.B. Oldman Prize for the most

outstanding reference resource published in 2014. He received the award at their Annual Conference held at the University of Aston, Birmingham in April.
