The New York Times bestselling author of *Life's Too Short* delivers a refreshingly modern fairy tale perfect for fans of Casey McQuiston and Emily Henry. After a wild bet, gourmet grilled-cheese sandwich, and cuddle with a baby goat, Alexis Montgomery has had her world turned upside down. The cause: Daniel Grant, a ridiculously hot carpenter who's ten years younger than her and as casual as they come—the complete opposite of sophisticated city-girl Alexis. And yet their chemistry is undeniable. While her ultra-wealthy parents want her to carry on the family legacy of world-renowned surgeons, Alexis doesn't need glory or fame. She's fine with being a “mere” ER doctor. And every minute she spends with Daniel and the tight-knit town where he lives, she's discovering just what's really important. Yet letting their relationship become anything more than a short-term fling would mean turning her back on her family and giving up the opportunity to help thousands of people. Bringing Daniel into her world is impossible, and yet she can't just give up the joy she's found with him either. With so many differences between them, how can Alexis possibly choose between her world and his?

Susan and Carlos were unlikely friends. She was a young, overweight college professor and a bit of a trainwreck—juggling a divorce, a pack-a-day habit, and hiding empty boxes of wine under her bed. He was her boss, an Ironman triathlete, with life figured out. She was a whiner, he was a hard-ass. He had his shit together, she most assuredly did not. Trash-talking workouts, breakdowns, a devastating diagnosis—this heartwarming story of training buddies reveals a deep and abiding friendship that traversed life, sport, and everything in between. Their journey reveals the inspiring power of sports and friendship to change lives forever. Amusing and poignant, *Life's Too Short To Go So F*cking Slow* is about running and triathlon, growth and heartbreak, and an epic friendship that went the distance.

"Chris Hani's assassination in 1993 gave rise to one of South Africa's great imponderables: if he had survived, what impact would he have had on politics and government in South Africa? More pointedly, could this charismatic leader have risen to become president of the country? Hani was a hero of South Africa's liberation, a communist party leader and Umkhonto we Sizwe chief of staff who was both intellectual and fighter, a man who could inspire an army but carried a book of poetry in his backpack. Hani led MK into its earliest battles, and carved a formidable reputation as a thinker, debater and peacemaker. Hani: A Life Too Short tells the story of Hani's life, from his childhood in rural Transkei and education at Fort Hare University to the controversial Memorandum of 1969, the crisis in the ANC camps in Angola in the 1980s and the heady dawn of freedom. Drawing on interviews and the recollections of those who knew him, this vividly written book provides a detailed account of the life of a great South African. "

Loretta La Roche has helped millions of people find ways to lighten up and overcome stress. Now, in *Life Is Short—Wear Your Party Pants*, she gives you the tools you need to not only reduce feelings of tension, but also to bring joy, passion, and gusto into your life. Her techniques are a brilliant blend of old-world common sense and the most contemporary research in brain chemistry, psychology, and mind-body studies. Loretta gives you dozens of proven techniques for recognizing the ten simple truths that will lead you to an intense, happy, successful life: resilience, living in the moment, optimism, acceptance, humor, creativity, moderation, responsibility, meaning, and connection. Loretta's wisdom evolved from her own life—one filled with the demands of being a single mother of three; of starting her own business when she was broke; and of the wacky invasiveness of her Italian family. She's like all of us: real, flawed, stressed out, and on edge. Her magic comes from an ability to not take herself too seriously, and to always shift her focus away from the self-destructive and toward the truly important things in life. In her work, Loretta has seen tens of thousands of people who live their lives as if they're sitting in a waiting room, hoping that their turn comes up next. This book will show you that life is not something to be endured, but is something to be truly appreciated. We need to remember how to access our inner abundance, which allows us to be heart-centered, joy-filled human beings. As Loretta says: "Yesterday is history, tomorrow is a mystery, and today is a gift—that's why they call it the present."

Combining wit and candor with sharp cultural observations, David Dark flips the script on religiosity, arguing that "If what we believe is what we see is what we do is who we are, there's no getting away from religion."

To Worry about Stupid Things! Quadrille Publishing

Life is short. You can, if you work hard and are lucky, get more of almost anything, but you can't get more time. Time only goes one way. The average American has a lifespan of less than 30,000 days. So how you choose to live matters. That's the topic of this book. I don't pretend to have all the answers. I'm still learning

every day, and many of the good ideas here I've picked up from other people either directly or by reading. But this is what's worked for me. Like life, this book is short. Many books I read could communicate their ideas in fewer pages. So I've tried to be brief in line with the wise person who noted: "If I'd had more time I would have written a shorter letter". I don't think brevity implies lack of content. The concepts here have improved the quality of my life, and I hope they're useful to you as well. Using these concepts, I have created a life I love. My job doesn't feel like work. I love and respect the people with whom I spend time. And I'm also passionate about my life outside work. I've learned how to create a balance that makes me happy between work and other interests, including my family, friends and exercise. Sadly I think that's rare. And yet, while I know I'm lucky, most people can work towards those goals in their own lives. My interest in making the most of my life began when I was just starting college, but when I was in my mid-thirties a boss I admired died of cancer. He was young. He had a great wife; he had three young children; he had a fantastic career -- he had everything in life. He just didn't have enough time. So, while I'd often thought about how to get the most out of life, the death of someone so young and vital increased my sense of urgency to act on it. One of the things I've always wanted to do was to work for myself. As a result, I left an exciting job at Microsoft in 2001 amidst the Internet bust to found the investing firm I now run. It was hard to do, both financially and emotionally. When I left Microsoft, many people - friends, family, and even some of the press - thought I was deluding myself to start a fund focused on Internet-related companies during a market crash. A press quote from the time said: "Call him a little crazy. Call him a little nuts." I'd never seen that type of coverage before. And, in a sense, the press was right; the business wasn't easy to start. Fortunately, from a vantage point of ten years down the road, it's worked out quite well. A key part of my job is reading and thinking about a broad variety of topics. So writing this book was relatively easy. It's even easier to read. But, like many things in life, actually executing each day on these concepts is extremely difficult. With thanks to Thomas Edison, life is 1% inspiration and 99% perspiration. Even so, I hope you have fun perspiring. Peter Atkins Seattle, WA December, 2010

During childhood, we are unaware of the power we have to change someone's life. That sometimes, we as children need to take matters into our own hands to save someone we love. On January 18, 1976, I saved two people. I saved my mother (an alcoholic) and I saved myself. A few weeks before that night, a guardian angel gave me a glimpse into how our lives could be if she would just stop drinking. From the age of five until the age of ten, our roles were reversed. I was the adult and she was the child and after that night, the tides began to turn and our new relationship had begun.
