Why should students have this book? First, this practice guide was written by three AP World History teachers with over 20 years of experience grading the AP World History Exam—they have seen it all and are sharing their expertise. Secondly, This guide can be used at any point in the school year. Writing prompts cover every era of history and are arranged in an easy-to-follow, chronological order. The writing practice section contains six DBQs, twelve LEQs, and seventy-two SAQs. This guide also has THREE multiple-choice practice tests. The first multiple-choice test covers the first three time periods (Paleolithic era to ~1500 C.E.) and is designed to be taken halfway through the course to give students an idea of where they stand. The other two multiple-choice exams cover the entire course curriculum. All multiple-choice questions and writing prompts are tied to the key concepts of the course and the answer key features comprehensive explanations and examples of student work. No other prep book offers this much practice material written to AP guidelines.

Is peace an aberration? The New York Times bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity.

NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW "Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book."—H.R.

McMaster, author of *Dereliction of Duty* and *Battlegrounds: The Fight to Defend the Free World* The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity's history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. War: How Conflict Shaped Us explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.
