The National Book Award-winning novel of a young girl's coming of age, from the author of *Send Me Down a Miracle*. Twelve-year-old Miracle McCloy never liked the story of her remarkable birth, but her grandmother Gigi has always loved telling it. An expert in occult magic, Gigi insists that when Miracle was saved from her dead mother's womb, it was an omen of greatness to come. But how can Miracle become a prodigy like her father when sometimes she feels like she doesn't even exist? When her father suddenly vanishes without a trace, Miracle's life starts feeling less miraculous by the day. The only time she feels whole is when she's dancing—an activity her grandmother strictly forbids. But shortly after her thirteenth birthday, a life-threatening incident puts her whole world in a harsh new light. And though she does not emerge unscathed, Miracle might finally see the truth about her past, her family, and herself. "Extraordinary . . . Nolan does a masterful job of drawing readers into the girl's mind and of making them care deeply about her chances for the future." —School Library Journal (starred review) "Elaborately drawn characters that will surprise readers at every turn . . . Compelling." —Booklist (starred review)

A thrilling journey by canoe across Alaska, by critically acclaimed writer Adam Weymouth. The Yukon river is 2,000 miles long, the longest stretch of free-flowing river in the United States. In this riveting examination of one of the last wild places on earth, Adam Weymouth canoes along the river's length, from Canada's Yukon Territory, through Alaska, to the Bering Sea. The result is a book that shows how even the most remote wilderness is affected by the same forces reshaping the rest of the planet. Every summer, hundreds of thousands of king salmon migrate the distance of the Yukon to their spawning grounds, where they breed and die, in what is the longest salmon run in the world. For the communities that live along the river, salmon was once the lifeblood of the economy and local culture. But climate change and a globalized economy have fundamentally altered the balance between man and nature; the health and numbers of king salmon are in question, as is the fate of the communities that depend on them. Traveling along the Yukon as the salmon migrate, a four-month journey through untrammelled landscape, Adam Weymouth traces the fundamental interconnectedness of people and fish through searing and unforgettable portraits of the individuals he encounters. He offers a powerful, nuanced glimpse into indigenous cultures, and into our ever-complicated relationship with the natural world. Weaving in the rich history of salmon across time as well as the science behind their mysterious life cycle, *Kings of the Yukon* is extraordinary adventure and nature writing at its most urgent and poetic. "Kings of the Yukon succeeds as an adventure tale, a natural history and a work of art."—Wall Street Journal

Martin Luther King Jr.'s Last 31 Hours Houghton Mifflin Harcourt
 INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." —Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But *Factfulness* does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." —Former U.S. President Barack Obama
 Factfulness: The stress-reducing habit of

only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

So Jeremiah does what any intelligent, sensitive person would do. He runs away. With the windows shut, the door locked, the mailbox removed to discourage any connection with the world, he feels safe at last. Except nobody told the locals that they were to leave Jeremiah alone. And then his past comes calling. Ash Locken, head of the Locken Group, the multinational consortium that Jeremiah has fled, arrives on his doorstep with a simple proposition. She wants our hero to formulate one more forecast, and she's not about to take no for an answer. Featured in the New York Times selection of "15 remarkable books by women that are shaping the way we read and write fiction in the 21st century" A beautiful, unsettling novel about rebellion and taboo, violence and eroticism, and the twisting metamorphosis of a soul Before the nightmares began, Yeong-hye and her husband lived an ordinary, controlled life. But the dreams—invasive images of blood and brutality—torture her, driving Yeong-hye to purge her mind and renounce eating meat altogether. It's a small act of independence, but it interrupts her marriage and sets into motion an increasingly grotesque chain of events at home. As her husband, her brother-in-law and sister each fight to reassert their control, Yeong-hye obsessively defends the choice that's become sacred to her. Soon their attempts turn desperate, subjecting first her mind, and then her body, to ever more intrusive and perverse violations, sending Yeong-hye spiraling into a dangerous, bizarre estrangement, not only from those closest to her, but also from herself. Celebrated by critics around the world, *The Vegetarian* is a darkly allegorical, Kafka-esque tale of power, obsession, and one woman's struggle to break free from the violence both without and within her.

From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times
