The book analyzes recent changes to the identities and cultures of the GCC countries. These important transformations have gone largely unnoticed due to the fast-paced changes

in the region that affect all aspects of society. The volume unpacks these transformations by looking from a holistic perspective at the intersections of language, arts, education, political culture, city, regional alliances and transnational identities. It offers selected case studies based on original research carried out in the region. Chapter 7, 'Identity Lost & Found: Architecture and Identity Formation in Kuwait and the Gulf', of this book is available open access under a CC BY 4.0 license at [link.springer.com](http://link.springer.com)

Less did the Maxwells' know that a simple weekend would turn so disastrous for them, and would end up giving the narrator an idea for his next unfunny story. Sounds strange? It surely is, just as the story proceeds. Go through a short history of how Maxwells' climbed

the leaders of success. then how a song changed their life. Last, but not the least, how they encountered, what we call, a 'ghost' and how a song acted like a 'holy cross' for them. All this, with a tinge of unfunny humour, which gives the title of this book. So, sit back and enjoy the ride as we go through a journey filled with cringe, humour, and somewhat horror.

The collection of articles in *Discourse Studies in Public Communication* illustrates that public communication is a fascinating, evidence-based storehouse for research in discourse analysis. The contributions to this volume — in the spheres of political rhetoric, gender and sexuality, and corporate and academic

communication — provide good evidence of contemporary social structure, social phenomena, and social issues. In this way, following the parameters of different analytical frameworks (critical discourse analysis, cognitive metaphor theory, appraisal theory, multimodality, etc.), the contributors address not only the linguistic aspects of texts but also, and more importantly, the cultural and cognitive dimensions of public communication in a range of real life communicative contexts and kinds of discourse. Although the volume is addressed, first and foremost, to readers with diverse interests in English linguistics, it may also prove valuable to scholars in other non-linguistic research fields like communication studies, social

theory, political science, or psychology. **Technology, Industries, Content, and Users** Rutgers University Press Although there have been substantial contributions to Chicana literature and criticism over the past few decades, Chicanas are still underrepresented and underappreciated in the mainstream literary world and virtually nonexistent in the canon. Writers like Sandra Cisneros, Ana Castillo, and Gloria Anzaldúa have managed to find larger audiences and critical respect, but there are legions of Chicana writers and artists who have been marginalized and ignored despite their talent. Even in Chicano anthologies, the focus has tended to be more on male writers. Chicanas have often found themselves without a real home in the academic world. Tey Diana Rebolledo

has been writing about Chicana/Latina identity, literature, discrimination, and feminism for more than two decades. In this collection of essays, she brings together both old and new works to give a state-of-the-moment look at the still largely unanswered questions raised by vigilant women of color throughout the last half of the twentieth century. An intimate introductory essay about Rebolledo's personal experiences as the daughter of a Mexican mother and a Peruvian father serves to lay the groundwork for the rest of the volume. The essays delve into the historical development of Chicana writing and its early narratives, the representation of Chicanas as seen on book covers, Chicana feminism, being a Chicana critic in the academy, Chicana art history, and

Chicana creativity. Rebolledo encourages "guerrillera" warfare against academia in order to open up the literary canon to Chicana/Latina writers who deserve validation.

This critical study of the group of remarkably talented poets who flourished in Spain between the First World War and the Spanish Civil War includes copious quotations accompanied by English prose translations. Mr Morris treats his poets as a group, showing how they shared certain themes and attitudes. He begins with a general study of the generation as a whole and then examines the use of tradition; the zest and levity of the Jazz

Age; the exaltation of life as a shared attitude; then its converse; the escape from life; and finally the expression in complex imagery of personal tensions and disturbances. These are often 'difficult' poets, but become less so when they are sympathetically examined in this way and in relation to earlier literary traditions. Mr Morris enables the reader to take bearings and establish relationships which are enhanced by reproductions of photographs of the poets.

 Crista Hazell's Independent Thinking on MFL: How to make modern foreign language teaching exciting, inclusive and relevant takes teachers on a tour of

how to get the teaching of a new language right. Foreword by Ian Gilbert. Learning a new language has the power to transform a life, as well as help break down the barriers that seem to be re-emerging between nations, cultures and people. In the UK, MFL teaching has always had to battle with the 'everyone speaks English' argument, not to mention that, for so many, all that remains of their years learning a foreign language is *bitte*, *por favor* or *s'il vous plait*. But with teachers like Independent Thinking Associate Crista Hazell at the front of the class, things can be very different. Drawing on her many years of experience as an MFL teacher and head of department, Crista shares tips, techniques and inspirational ideas geared to help teachers build

confidence, increase enjoyment and improve outcomes as they take their MFL teaching to a whole new level. Crista provides a range of strategies from how to hook students in the minute they enter the classroom to ensuring that the vocabulary sticks designed to help learners develop confidence, take risks and enjoy the challenge that learning a new language brings. She also offers ideas and advice on how to make learning new vocabulary and grammar a great deal more effective and empowers teachers to open up the benefits and enjoyment of learning a language to all students, not just those in the top sets. Ultimately, however, her book sets out to help teachers create engaging, relevant and memorable learning experiences in the MFL classroom and

encourage their learners to become lifelong and passionate linguists. For MFL teachers and heads of languages departments in primary schools, secondary schools and colleges.

Race and Cultural Practice in Popular Culture is an innovative work that freshly approaches the concept of race as a social factor made concrete in popular forms, such as film, television, and music. The essays collectively push past the reaffirmation of static conceptions of identity, authenticity, or conventional interpretations of stereotypes and bridge the intertextual gap between theories of community enactment and cultural representation. The book also draws together and melds otherwise isolated academic theories and methodologies in order to focus on race as an ideological reality and a process that continues to

impact lives despite allegations that we live in a post-racial America. The collection is separated into three parts: Visualizing Race (Representational Media), Sounding Race (Soundscape), and Racialization in Place (Theory), each of which considers visual, audio, and geographic sites of racial representations respectively.

Puerto Rico is often depicted as a "racial democracy" in which a history of race mixture has produced a racially harmonious society. In *Remixing Reggaetón*, Petra R. Rivera-Rideau shows how reggaetón musicians critique racial democracy's privileging of whiteness and concealment of racism by expressing identities that center

blackness and African diasporic belonging. Stars such as Tego Calderón criticize the Puerto Rican mainstream's tendency to praise black culture but neglecting and marginalizing the island's black population, while Ivy Queen, the genre's most visible woman, disrupts the associations between whiteness and respectability that support official discourses of racial democracy. From censorship campaigns on the island that sought to devalue reggaetón, to its subsequent mass marketing to U.S. Latino listeners, Rivera-Rideau traces reggaetón's origins and its transformation from the music of San Juan's slums into a global pop phenomenon. Reggaetón, she demonstrates, provides a language to speak about the black presence in

Puerto Rico and a way to build links between the island and the African diaspora.

Brazilian music has been central to Brazil's national brand in the U.S. and U.K. since the early 1960s. From bossa nova in 1960s jazz and film, through the 1970s fusion and funk scenes, the world music boom of the late 1980s and the bossa nova remix revival at the turn of

the millennium, and on to Brazilian musical distribution and branding in the streaming music era, *Bossa Mundo: Brazilian Music in Transnational Media Industries* focuses on watershed moments of musical breakthrough, exploring what the music may have represented in a particular historical moment alongside its deeper cultural impact. Through a discussion of the political meaning of mass-mediated music, author K. E. Goldschmitt argues for a shift in scholarly focus--from viewing music as simply a representation of Otherness to taking into account the broader media environment where listeners and intermediaries often have conflicting priorities. Goldschmitt demonstrates that the mediation of Brazilian music in an

increasingly crowded transnational marketplace has lasting consequences for the creative output celebrated by Brazil. Like other culturally rich countries in Latin America--such as Cuba, Mexico, and Argentina--Brazil has captured the imagination of people in many parts of the world through its music, driving tourism and international financial investment, while increasing the country's prominence on the world stage. Nevertheless, stereotypes of Brazilian music persist, especially those that valorize racial difference. Featuring interviews with key figures in the transnational circulation of Brazilian music, and in-depth discussions of well-known Brazilian musicians alongside artists who redefine what it means to be a Brazilian musician in the twenty-first

century, *Bossa Mundo* shows the pernicious effects of branding racial diversity on musicians and audiences alike.

Providing a framework for understanding the relationship between media and society, this updated Sixth Edition of *Media/Society* helps you develop the skills you need to critically evaluate both conventional wisdom and your own assumptions about the social role of the media. Authors David Croteau and William Hoynes retain the book's basic

sociological framework but now include additional discussions of new studies and up-to-date material on today's rapidly changing media landscape. Now featuring streamlined content and a more engaging narrative, this edition offers expanded discussions of the "new media" world, including digitization, the internet, the spread of mobile media devices, the role of user-generated content, the potential social impact of new media on society, and new media's effect on traditional media outlets
