One hundred years after the birth of Alan Turing, the great pioneer of computer science, artificial intelligence has

become so much a part of everyday life that it is hard to imagine the world without it. This book contains papers from the 15th International Conference of the Catalan Association of Artificial Intelligence (CCIA 2012), held at the Universitat d'Alicant, Spain, in October 2012. Since 1994 the Catalan Association of Artificial Intelligence (ACIA) has fostered cooperation between researchers in artificial intelligence within the Catalan speaking community. The annual CCIA is its international conference, a platform where not only researchers from Catalan speaking countries, but also those working in artificial intelligence worldwide, have found

a place to show, discuss and publish the results of their researches and developments. The 23 papers presented here, which include contributions from the AI community all over the world, cover topics such as KDD, DM and machine learning; natural language processing and recommenders; computer vision; robotics; AI for optimization problems and AI applications in the real world. The book also includes the contributions of the two invited keynote speakers at the conference - Oscar Cordon and Eduardo Nebot - which respectively address the subjects of real-world applications of soft artificial intelligence, and

challenges of automation and safety in field robotics.

Colour maps help you navigate with ease - Covers Northern and Southern Costa Blanca, Costa Cálida, Inland Murcia and more Staying for longer as part of a bigger trip? Try our DK Eyewitness Travel Guide Spain. **Report** Pocket Travel Guide Is there an alternative to popular images of Spain - sun, sea, sand and sangria, a hectic night life, art in Madrid, Las Fallas in Valencia, a pilgrimage to Santiago de Compostela, running with bulls in Pamplona, flamenco in Sevilla and tomato hurling in La Tomatina? Yes, a different Spain! Can you imagine being a Celt, a Roman or a Moor, or life as a peasant farmer, or a modern-day politician squandering EU

grants? Imagine... gnarled fishermen on the wild Coast of Death, people toiling in fields growing lavender and saffron, or Cervantes wandering around La Mancha gazing at Consuegra windmills, or an athlete standing on a faded Olympic diving board. Can you imagine intriguing places, visible history gradually degrading little by little, once part of the fabric of Spain many years ago, but still visible to explorers who wish to find it? Covering relics of old times, medieval towns, recent and new abandoned locations, **OUT OF SIGHT SPAIN** shows the way to cool, unusual, often well-hidden remains. Hike on a remote scary trail, or go underground to homes, salt mines and

sewers, or stand watching the sunset at Worlds End.

Contemplate fascinating artifacts of land, sea and air. Visit vestiges of the Civil War and WW2. Find different perspectives on the big cities of Spain. Reflect on the future of old village bars, rural hamlets at a crossroad, Sergio Leone's film locations, modern day visionaries, heroes, painters and sex workers, enjoying some traditional gastronomy along the way.
