Cocky Baron W. R. Gingell

In this updated edition of the popular textbook *An Introduction to the Old Testament*, Walter Brueggemann and Tod Linafelt introduce the reader to the broad theological scope of the Old Testament, treating some of the most important issues and methods in contemporary biblical interpretation. This clearly written textbook focuses on the literature of the Old Testament as it grew out of religious, political, and ideological contexts over many centuries in Israel's history. Covering every book in the Old Testament (arranged in canonical order), the authors demonstrate the development of theological concepts in biblical writings from the Torah through postexilic Judaism. Incorporating the most current scholarship, this new edition also includes concrete tips for doing close readings of the Old Testament text, and a chapter on ways to read Scripture and respond in light of pressing contemporary issues, such as economic inequality, racial and gender justice, and environmental degradation. This introduction invites readers to engage in the construction of meaning as they venture into these timeless texts.

Until something changed... and her cries of fear turned into cries of pleasure. Slowly, bringing us, one, by one to our knees, making us fall for the enemy. In this biting funny, Kafkaesque satire, Ian McEwan engages with scabrous humour a very recognizable political world and turns it on its head.

The Eve of Spain demonstrates how the telling and retelling of one of Spain's founding myths played a central role in the formation of that country's national identity. King Roderigo, the last Visigoth king of Spain, rapes (or possibly seduces) La Cava, the daughter of his friend and counselor, Count Julian. In revenge, the count travels to North Africa and conspires with its Berber rulers to send an invading army into Spain. So begins the Muslim conquest and the end of Visigothic rule. A few years later, in Northern Spain, Pelayo initiates a Christian resistance and starts a new line of kings to which the present-day Spanish monarchy traces its roots. Patricia E. Grieve follows the evolution of this story from the Middle Ages into the modern era, as shifts in religious tolerance and cultural acceptance influenced its retelling. She explains how increasing anti-Semitism came to be woven into the tale during the Christian conquest of the peninsula—in the form of traitorous Jewish conspirators. In the sixteenth century, the tale was linked to the looming threat of the Ottoman Turks. The story continued to resonate through the Enlightenment and into modern historiography, revealing the complex interactions of racial and religious conflict and evolving ideas of women's sexuality. In following the story of La Cava, Rodrigo, and Pelayo, Grieve explains how foundational myths and popular legends articulate struggles for national identity. She explores how myths are developed around few historical facts, how they come to be written into history, and how they are exploited politically, as in the expulsion of the Jews from Spain in 1492 followed by that of the Moriscos in 1609. Finally, Grieve focuses on the misogynistic elements of the story and asks why the fall of Spain is figured as a cautionary tale about a woman's sexuality.

Touching the World Harper Collins

The fiery, provocative, and unparalleled work of feminist art criticism that launched the exceptional career of one of our most important public intellectuals—"a remarkable book, at once outrageous and compelling, fanatical and brilliant.... One must be awed by [Paglia's] vast energy, erudition and wit" (The Washington Post). Is Emily Dickinson "the female Sade"? Is Donatello's David a bit of pedophile pornography? What is the secret kinship between Byron and Elvis Presley, between Medusa and Madonna? How do liberals and feminists—as well as conservatives—fatally misread human nature? This audacious and omnivorously learned work of guerrilla scholarship offers nothing less than a unified-field theory of Western culture, high

and low, since Egyptians invented beauty—making a persuasive case for all art as a pagan battleground between male and female, form and chaos, civilization and daemonic nature. With 47 photographs.
