Process, Powers, and Problems (Essays in Honour of Upendra Baxi) Bloomsbury Publishing

Die Insolvenz von Staaten ist keineswegs ein seltenes oder neues Phänomen. Dennoch herrscht weiterhin die Maxime vor: "Staaten gehen nicht pleite". Bisher gibt es deshalb auch kein geregeltes Insolvenzverfahren für Staaten, obwohl es an Vorschlägen für ein derartiges Verfahren auf internationaler Ebene nicht mangelt. Das vorliegende Werk setzt sich mit den derzeitigen Lösungsmechanismen für Staatsschuldenkrisen kritisch auseinander und zeigt Möglichkeiten für den künftigen Umgang mit derartigen Krisen auf. Ein besonderer Fokus liegt hierbei auf bisherigen Lösungsansätzen auf europäischer Ebene: den Hilfspaketen für Griechenland, dem EFSM, dem EFSF und dem ESM. Diese werden auf ihre Zweckmäßigkeit geprüft sowie daraufhin untersucht, ob sie insolvenzrechtliche Elemente enthalten. Letztlich wird ein mögliches Insolvenzverfahren für

Staaten auf EU Ebene und dessen Umsetzungsmöglichkeiten erörtert.

Then, Now and Tomorrow Walter de Gruyter GmbH & Co KG

This handbook offers essential guidance on how to pursue, progress and advance a career in legal academia. With contributions from a wide range of established academics, the text provides personal and supportive advice that is relevant to a variety of different career objectives, showing how to overcome challenges and seek out opportunities.

The pedagogical imperatives Cengage Learning

This book explores the interface between competition law and market integration in the application of Article 102 of the Treaty on the Functioning of the European Union (TFEU), focusing on the notion of 'market separation'-namely conduct that may hinder cross-border trade. The discussion reviews, among other things, the treatment of geographic price discrimination and exclusionary abuse, by which out-of-state competitors are affected. 'Market separation' cases are treated in the book as a case study for appraising the interface between competition and the Internal Market. On this basis, the book provides a comparative analysis of the Treaty requirements under Article 102 TFEU when applied in 'market separation' cases and the Treaty requirements under the free

movement provisions. In addition, it utilises 'market separation' cases as a springboard for advancing an informed reformulation of the application of Article 102 TFEU when state action comes into play. All in all, the analysis presented in the book deconstructs the elements for establishing 'market separation' as an abuse of the dominant position. It shows that there is nothing that would justify a distinctive treatment of 'market separation' under Article 102 TFEU, other than a principled understanding of Internal Market law as a whole: whatever understanding one reaches about the proper shape of the Internal Market, interrogation of the proper application of competition law comes after that and thus should be informed by this understanding.

The Interface between Competition and the Internal Market Oxford University Press
 Introduces students to legalistic, theoretical, empirical, comparative and cross-disciplinary research methods, grounded in working examples
 New for this edition
 New chapter on inter- and cross-disciplinary research essential reading for international students and students with a non-law first degree undertaking research in the areas of law, criminology, psychology and sociology
 Research ethics has been expanded to a full chapter that includes current plagiarism and imperfect disclosure
 Brings existing chapters up to date with the newest thinking in legal

researchDrawing on actual research projects, *Research Methods for Law* discusses how legal research as process impacts on research as product. The author team has a broad range of teaching and research experience in law, criminal justice and socio-legal studies, and give examples from real-life research products to illustrate the theory.

Concise Guide to Legal Research and Writing Cengage Learning

Multi-Sided Music Platforms and the Law explores the legal and regulatory frameworks surrounding copyright protection, competition and privacy concerns arising from the way multi-sided platforms use copyright-protected content in digital advertising. This book suggests how stakeholders in Africa, and their advisors, may ingenuously reform and apply various legal and regulatory frameworks to address these issues which arise from the manner in which multi-sided platforms use copyright-protected content in digital advertising. The book critically engages with the regulatory efforts in other jurisdictions, particularly the EU, with a view to bringing an African perspective to the debate and practice. It undertakes a consideration of this issue by asking how multi-sided platforms may be deployed in a manner that continues innovative uses of copyright content while protecting the economic freedom of African copyright owners as small businesses. Providing the first pro-Africa approach to the regulation of multi-sided platforms, particularly with reference to music, this book focuses on key aspects of digital commercial activity and highlights the main challenges and opportunities for its regulation. It will be of interest to lawyers, policymakers and students across Nigeria, South Africa, and internationally among the African Union, European Union and beyond. .

Caribbean Anti-Trafficking Law and Practice Macmillan International Higher Education
Comprehensive yet easy to understand, the third edition of LEGAL RESEARCH, ANALYSIS, AND WRITING teaches the fundamentals in a hands-on, step-by-step format that is designed to build confidence. With coverage of key topics such as research analytical principles, legal research, legal analysis, and legal writing, this popular book covers the information readers need to know in order to find, access, apply, and analyze legal materials. Numerous hypotheticals, examples, and exercises clarify material and give readers additional opportunities for practice. In addition, the third edition includes the most up-to-date information in the field, with special attention given to electronic research programs such as WestlawNext, LexisNexis interface, Shepard's online, and Westlaw's KeyCite. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Manitoba Law Journal is a peer-reviewed journal founded in 1961. The MLJ's current mission is to provide lively, independent and high caliber commentary on legal events in Manitoba or events of special interest to our community. This issue has articles from a variety of contributing authors including: Amar Khoday, Ami Kotler, Brandon Trask, Bruce MacFarlane, Bryan P. Schwartz, Dale McFadzean, Darcy L. MacPherson, Delloyd J. Guth, Donn Short, Douglas D. Ferguson, Edward D. Brown, Eveline Milliken, Gord Mackintosh, Janelle Anderson, Jeffrey Oliphant, John Burchill, John Pozios, Lee Stuesser, M. Lynne Jenkins, Martha E. Simmons, Miranda Grayson, Philip Girard, Richard J. Chartier, Richard Wolson, Romeo Dallaire, Sacha R. Paul, Sarah Buhler, Susan Noakes, and Trevor C. W. Farrow.

A Practical Guide SAGE Publications

Sustainable agriculture is a rapidly growing field aiming at producing food and energy in a sustainable way for humans and their children. Sustainable agriculture is a discipline that addresses current issues such as climate change, increasing food and fuel prices, poor-nation starvation, rich-nation obesity, water pollution, soil erosion, fertility loss, pest control, and biodiversity depletion. Novel, environmentally-friendly solutions are proposed based on integrated knowledge from sciences as diverse as agronomy, soil science, molecular biology, chemistry, toxicology, ecology, economy, and social sciences. Indeed, sustainable agriculture decipher mechanisms of processes that occur from the molecular level to the farming system to the global level at time scales ranging from seconds to centuries. For that, scientists use the system approach that involves studying components and interactions of a whole system to address scientific, economic and social issues. In that respect, sustainable agriculture is not a classical, narrow science. Instead of solving problems using the classical painkiller approach that treats only negative impacts, sustainable agriculture treats problem sources. Because most actual society issues are now intertwined, global, and fast-developing, sustainable agriculture will bring solutions to build a safer world.

Judicial Review Edward Elgar Publishing

Drawing on a range of approaches from the social sciences and humanities, this handbook explores theoretical and empirical perspectives that address the articulation of law in society, and the social character of the rule of law. The vast field of socio-legal studies provides multiple lenses through which law can be considered. Rather than seeking to define the field of socio-legal studies, this book takes up the experiences of researchers within the field. First-hand accounts of socio-legal research projects allow the reader to engage with diverse theoretical and methodological approaches within this fluid interdisciplinary area. The book provides a rich resource for those interested in deepening their understanding of the variety of theories and methods available when law is studied in its broadest social context, as well as setting those within the history of the socio-legal movement. The chapters consider multiple disciplinary lenses – including feminism, anthropology and sociology – as well as a variety of methodologies, including: narrative, visual and spatial, psychological, economic and epidemiological approaches. Moreover, these are applied in a range of substantive contexts such as online hate speech, environmental law, biotechnology, research in post-conflict situations, race and LGBT+ lawyers. The handbook brings together younger contributors and some of the best-known names in the socio-legal field. It offers a fresh perspective on the past, present and future of sociolegal studies that will appeal to students and scholars with relevant interests in a range of subjects, including law, sociology and politics.

Legal Research, Analysis, and Writing Cambridge University Press

The aim of this book is to explain in clear terms some of the main methodological approaches in legal research. This is an edited collection, with each chapter written by specialists in their field, researching in a variety of jurisdictions. Each contributor addresses the topic of "lay decision makers in the legal system" from one particular methodological perspective, explaining how they would approach the issue and discussing why their particular method might, or might not, be suited to this topic. In asking all contributors to focus on the same topic, the editors have sought to provide a common link throughout the text, thereby providing the reader with an opportunity to draw comparisons between methods with relative ease. In light of the broad geographical range of its contributors, the book is aimed at an international readership. This book will be of particular interest to PhD students in law, but it will also be of use to undergraduate dissertation students in law, LL.M Research students as well as prospective PhD students and early year researchers.

Law Dissertations Taylor & Francis

The Teaching of Criminal Law provides the first considered discussion of the pedagogy that should inform the teaching of criminal law. It originates from a survey of criminal law courses in different parts of the English-speaking world which showed significant similarity across countries and over time. It also showed that many aspects of substantive law are neglected. This prompted the question of whether any real consideration had been given to criminal law course design. This book seeks to provide a critical mass of thought on how to secure an understanding of substantive criminal law, by examining the course content that best illustrates the thought process of a criminal lawyer, by presenting innovative approaches for securing active learning by students, and by demonstrating how criminal law can secure other worthwhile graduate attributes by introducing wider contexts. This edited collection brings together contributions from academic teachers of criminal law from Australia, New Zealand, the United Kingdom, and Ireland who have considered issues of course design and often implemented them. Together, they examine several innovative approaches to the teaching of criminal law that have been adopted in a number of law schools around the world, both in teaching methodology and substantive content. The authors offer numerous suggestions for the design of a criminal law course that will ensure students gain useful insights into criminal law and its role in society. This book helps fill the gap in research into criminal law pedagogy and demonstrates that there are alternative ways of delivering this core part of the law degree. As such, this book will be of key interest to researchers, academics and lecturers in the fields of criminal law, pedagogy and teaching methods.

The Political Economy of Competition Law in China Oxford University Press

This volume explores communication and its implications on interpretation, vagueness, multilingualism, and multiculturalism. It investigates cross-cultural perspectives with original methods, models, and arguments emphasizing national, EU, and international perspectives. Both traditional fields of investigations along with an emerging new field (Legal Visual Studies) are discussed. Communication addresses the necessity of an ongoing interaction between jurilinguists and legal professionals. This interaction requires persuasive, convincing, and acceptable reasons in justifying transparency, visual analyses, and dialogue with the relevant audience. The book is divided into five complementary sections: Professional Legal Communication; Legal Language in a

Multilingual and Multicultural Context; Legal Communication in the Courtroom; Laws on Language and Language Rights; and Visualizing Legal Communication. The book shows the diversity in the understanding and practicing of legal communication and paves the way to an interdisciplinary and cross-cultural operation in our common understanding of legal communication. This book is suitable for advanced students in Linguistics and Law, and for academics and researchers working in the field of Language and Law and jurilinguists.

Foundations and Challenges Bloomsbury Publishing

Who would or should defend a potential murderer in court? How do professions regulate themselves? Is 'no win-no fee' an ethical system? Where is the line in a 'suitable' client-advocate relationship? Jonathan Herring provides a clear and engaging overview of legal ethics, highlighting that the issues surrounding professional conduct are not always black and white and raising interesting questions about how lawyers act and what their role entails. Key topics, such as confidentiality, negligence, and fees are covered, with references throughout to the professional codes of conduct. Features throughout the textbook to aid student learning include the highlighting of key cases, principles, and definitions; the inclusion of a variety of viewpoints through coverage of cases, popular media, and scholarly articles; and use inclusion of 'digging deeper' and 'alternative viewpoint' boxes which encourage critical reflection and better understanding of key theories and topics. The well developed online resource centre includes Podcasts linked to the 'what would you do' chapter features, video debates, relevant updates and web links.

Copyright, Law and Policy in Africa Text, Cases and Materials

In India, judicial review is not a static phenomenon. It has ensured that the Constitution is the supreme law of the land, and in situations when a law impinges on the rights and the liberties of citizens, it can be pruned or made void. This is a collection of scholarly essays demonstrating the different facets of judicial review based on the vast area of comparative constitutional law. Importantly, it honours the body of work of Upendra Baxi, legal scholar and author, whose contributions have shaped our understanding of legal jurisprudence and expanded the scope of social transformation in India. This volume recognizes his role as an Indian jurist. Various constitutional law experts come together to reflect on his expositions on the role of the apex court, judicial activism, accountability of judiciary, laws on surrogacy and adultery and so on.

Framing Convergence with the Global Legal Order Routledge

Featuring Deborah E. Bouchoux's highly regarded assignments, examples, and building-block approach, *Concise Guide to Legal Research and Writing, Fourth Edition* continues to provide timely coverage of the essential research and writing skills used by today's paralegals. Designed specifically for paralegal students, this is the ideal text for shorter legal research and writing courses. New to the Fourth Edition: New "Sidebar" feature in all research chapters provides quick tips showing how the material in that chapter applies to computer-assisted legal research systems, such as Lexis, Westlaw, and Bloomberg Law. Discussion of GovInfo, which provides free public access to official and authenticated publications from all three branches of the federal government. Coverage of new tools used for cite-checking, including EVA and Bestlaw. Discussion of Westlaw Edge, Westlaw's new research platform. Extensive new coverage of the increasing use of artificial intelligence in legal research and writing. Discussion of new sources that provide free public access to the law, including Harvard's Caselaw Access Project, CourtListener, and RECAP Project. New sections on preparing email letters and email memoranda, including assignments. All new Research Questions and Internet Legal Research Assignments have been included for each chapter. Professors and students will benefit from: Concise, well-organized text, divided into six main sections: Section I discusses primary authorities Section II covers secondary sources Section III focuses on computer-assisted legal research using Lexis Advance, Westlaw, and the Internet Section IV covers citation form and how to ensure that these sources are still "good law" Section V provides an overview of the legal research process Section VI covers legal writing Pedagogy designed to enhance the accessibility of the material, including helpful charts and diagrams that synthesize complex topics, updated Practice Tips offering realistic and helpful suggestions for workplace success, and Ethics Alerts in every chapter. Targeted and ample exercises help students learn how to use a wide range of research sources. Tips on how to effectively use electronic resources are included throughout the text. Conscientious revision ensures that the book has the most up-to-date material, presented in a readable and accessible format.

Imperatives for Legal Education Research Springer

For those embarking on or engaged in property law research, this is a unique resource which

includes contributions from twelve international scholars who each analyse a different research approach, addressing its value, associated methodology and the challenges involved in pursuing it. *Legal Ethics* Bloomsbury Publishing

This book examines the challenges of cross-professional comparisons and proposes new forms of performance assessment to be used in professions education. It addresses how complex issues are learned and assessed across and within different disciplines and professions in order to move the process of "performance assessment for learning" to the next level. In order to be better equipped to cope with increasing complexity, change and diversity in professional education and performance assessment, administrators and educators will engage in crucial systems thinking. The main question discussed by the book is how the required competence in the performance of students can be assessed during their professional education at both undergraduate and graduate levels. To answer this question, the book identifies unresolved issues and clarifies conceptual elements for performance assessment. It reviews the development of constructs that cross disciplines and professions such as critical thinking, clinical reasoning, and problem solving. It discusses what it means to instruct and assess students within their own domain of study and across various roles in multiple contexts, but also what it means to instruct and assess students across domains of study in order to judge integration and transfer of learning outcomes. Finally, the book examines what it takes for administrators and educators to develop competence in assessment, such as reliably judging student work in relation to criteria from multiple sources. "... the co-editors of this volume, Marcia Mentkowski and Paul F. Wimmers, are associated with two institutions whose characters are so intimately associated with the insight that assessment must

be integrated with curriculum and instructional program if it is to become a powerful influence on the educational process ..." Lee Shulman, Stanford University

Copyright Exhaustion Routledge

In the contemporary information society, organisations increasingly rely on the collection and analysis of large-scale data (popularly called 'big data') to make decisions. These processes, which take place largely beyond the individual's knowledge, produce a cascade of effects that go beyond privacy and data protection. Should we focus on the possibilities of tackling these often negative effects through other areas of law, or maybe even find new solutions to cope with the dark side of big data? This ground-breaking book is the first to address this crucially important question in detail. Among the issues raised in the analysis are such vital elements as the following: – what is meant by 'big data'; – 'privacy' according to the European Court of Human Rights and the Court of Justice of the European Union; – what the European Union legal framework on privacy and data protection consists of and how it functions in the light of big data; – what companies, governments and other organisations are permitted to do with big data under the current regulatory framework; – the central importance of personal autonomy; – circumstances that influence whether or not the right to privacy is triggered; – big data's possible impact on democracy through, inter alia, potentially limiting freedom of expression; – how governmental or corporate surveillance chills the receiver's gathering of information and ideas; – selective offering of choices or information, or manipulation of people's ideas; – procedural aspects that influence the extrapolation of normative concepts of privacy and data protection; and – how discrimination occurs in big data. This book foregrounds a critical scrutiny of commercial uses of big data – its scale, its limited capacity for

independent oversight and the expected prevalence of interference with individuals' rights. The author's conclusions explore possible legal alternatives to mitigate the negative impact of big data, using legal instruments, case law and legal academic literature in her analysis. Because the amount of digital data keeps growing and the private lives of individuals are increasingly taking place online – and because of the opacity of the big data process, the fundamental values that are at stake, and the speed of technological developments compared to the pace of legal reform – this comprehensive assessment of flaws in the current framework and possible practical solutions will be warmly welcomed by practitioners, policymakers and government officials in all legal fields related to privacy and data protection.

Text, Cases, and Materials Cambridge University Press

The Political Economy of Competition Law in China provides a unique perspective of China's competition law that is situated within its legal, institutional, economic, and political contexts. Adopting a framework that focuses on key stakeholders and the relevant governance and policy environment, and drawing upon stakeholder interviews, case studies, and doctrinal analysis, this book examines China's anti-monopoly law in the context of the political economy from which it emerged and in which it is now enforced. It explains the legal and economic reasoning used by Chinese competition authorities in interpreting and applying the anti-monopoly law, and offers valuable and novel insights into the processes and dynamics of law- and decision-making under that law. This book will interest scholars of competition law and professionals advising clients that operate in China, as well as scholars of Chinese law, Asian law, comparative law, and political and social science.
