Baby Caillou, Bathtime Springer Science & Business Media

This stylish publication celebrates the impact of contemporary Nordic style on interiors, furnishings and product design. Its attractiveness lies in the simplicity, attention to detail and high quality of materials that have long been associated with Scandinavian design. This book features fifty notable interior and product designers from Sweden, Norway, Denmark, Iceland and Finland. Whether they are well established or up and coming, the designers all share a passionate commitment to an elegant design style with widespread international appeal. New Nordic Design builds on the success of the author's earlier Fashion Scandinavia, in the same format, while also being completely new with great potential to reach a wide, global audience for whom Scandinavian living is a dream and an aspiration.

The Mellops Go Spelunking WHO Classification of Tumours

Based on the author's 20 years of teaching, Risk Analysis in Engineering: Techniques, Tools, and Trends presents an engineering approach to probabilistic risk analysis (PRA). It emphasizes methods for comprehensive PRA studies, including techniques for risk management. The author assumes little or no prior knowledge of risk analysis on the p

Close-Up Cartwheel Books

"This book is the complete guide to writing a masters' and doctoral thesis and addresses the nature of interdisciplinary and mixed methods research and the relationship between the two. This combination of research methods is the key precursor to the interrogation and comparison of exegetic (exposition), empirical and qualitative approaches to writing."--Pub. desc.

Techniques, Tools, and Trends Foucher

Collaboration and networking have recently come to the fore as major school improvement strategies in a number of countries. A variety of initiatives, from government and other agencies, have encouraged collaboration and led to a lot of practical activity in this area. However, at present there are no texts in education that explore collaboration and networking from both a

theoretical and practical perspective. In this book, we aim to provide a theoretical background to educational collaboration, drawing on research and theory in policy studies, psychology and sociology, leading ultimately to a typology of networks. This theoretical base will be tested in the discussion of a number of case studies referring to specific initiatives such as the Federations programme, multi-agency collaboration and Networked Learning Communities. Lessons for practice will be drawn and presented in terms of factors internal and external to the school. The key issue of network leadership will be addressed here as well.

Alex and the Monsters: Restaurant Rescue! Black Widow Press

Offers an illustrated encyclopedia of general science, with informative and fun facts on a broad array of scientific topics.

Evolution, Engagement with the World, and Poetry Springer

James Dean, who died in 1955 at the age of 24, once remarked: For me the only true success, the only true greatness, lies in immortality. These photographs document the enduring charisma of the young actor whose phenomenal popularity is based on only three movies: East of Eden, Rebel

Without a Cause, and Giant. 51 plates.

A Clinical Approach Phaidon Press

This is the first book of its kind to consider at length Coleridge's relationship to his near contemporary, Friedrich Schiller. Contrary to received opinion, the author shows that Schiller's notion of 'aesthetic education' was indeed valuable to Coleridge at an early stage in his career and that it helped to shape much of his work - from his theory of imagination and his notion of the clerisy to his views on women and his account of historical change. Combining close readings with historical research, this book challenges readers to rethink the radical potential of idealist aesthetics.

New Nordic Design Phaidon Incorporated Limited

A hilarious underground adventure starring the world's most adventurous family of pigs. When Mr. Mellops' golf ball rolls down a crevice, the family's natural response is to prepare a spelunking (cave exploring) expedition! Down the crevice they go, with their steel helmets and rope ladder. Then, on a rubber raft they follow the underground river at the bottom of the crevice. Stalactites and stalagmites abound, and cave paintings and other remnants of the past are everywhere. Suddenly the raft is punctured, and the Mellops swim to safety - only to find themselves in a smugglers' den. In an exciting turn of events, the clever pigs combine their archaeological explorations with the ingenious capture of these outlaws. A timeless favourite! A beautifully illustrated picture book for ages 3-6.

Science Encyclopedia Thames & Hudson

This stunning picture book from the bestselling team of Jean-Luc Fromental and Joelle Jolivet cleverly introduces many of the bones that make up the human body. A mysterious beast is terrorizing the resident skeletons of Bonesville. Under cover of darkness, it steals a different bone from each townspeople, from cranium to phalanges. It takes the washerwoman's humerus, the butcher's fibula, and Dr. Strongbones's coccyx. Thanks to his patience and cleverness, Detective Sherlock Bones traps the monster, revealing that the beast is only the harmless Spot of the Baskervilles, on a mission to rebuild the lost skeleton of his master, Dr. Watsbones. Jolivet's bold illustrations and Fromental's witty storytelling make for a winning combination in this striking picture book, perfect for young Sherlock Holmes fans. "

A Study of the Arts in America, 1865-1895 Andrews UK Limited

Another fantastic book of stories about M, the invisible computer-generated emu. In this collection, we meet M's emu girl-friend from Australia, rescue Kylie, the baby kangaroo, have a custard-pie fight in Hollywood, wing-walk on a biplane and witness a gladiatorial battle in ancient Rome. As expected, in every story in which he appears M never misses a chance to produce his own brand of comical antics.

Collected Novels and Plays Springer

Stéphane Mallarmé was a radically innovative poet of the 19th century, in English as well as in French. This text contains his poetry and his Poesies in the last arrangement known to have been

approved by the author and provides a wide-ranging survey of his work.

James Dean Courier Corporation

This OECD Economic Survey of France examines recent economic developments, policies and prospects. Special chapters cover competition, adult training and skills.

Comparative Veterinary Anatomy National Geographic Books

Pierre Coran is one of Belgium's most renowned poets who has been honored and has won most of Belgium's literary awards. His fables and children stories have been translated into more than a dozen languages and are published around the world. This amusing grouping of poems, though written to be enjoyed by children, are like all of Coran's fables meant to be understood and enjoyed by all ages. This bilingual, full color illustrated edition, is the third Coran book to be translated by renowned translator, Norman R. Shapiro.

Engineering Problem Solving with C++ Oxford University Press

Examining a range of Coleridge's writings, this book uses recent scientific research to understand how we have evolved to make mental representations of the counterfactual, how such transformative essays in Imagination have enabled humans to survive, to prosper and to express themselves in the sciences, the arts and particularly in poetry.

From Transcendence to Finitude Aust Council for Ed Research

A series with unlikely heroes: Monsters that read and Alex, a young boy discovering books and friendship.

Baby Caillou, Bedtime David Zwirner Incorporated

"An ambitious and lucid full narrative account of the peopling of Europe . . . this will undoubtedly provide a base line for future debates on the origins of the Europeans." —J. P. Mallory, author of *In Search of the Indo-Europeans* and *The Origins of the Irish* Who are the Europeans? Where did they come from? New research in the fields of archaeology and linguistics, a revolution in the study of genetics, and cutting-edge analysis of ancient DNA are dramatically changing our picture of prehistory, leading us to question what we thought we knew about these ancient peoples. This paradigm-shifting book paints a spirited portrait of a restless people that challenges our established ways of looking at Europe's past. The story is more complex than at first believed, with new evidence suggesting that the European gene pool was stirred vigorously multiple times. Genetic clues are also enhancing our understanding of European mobility in epochs with written records, including the arrival of the Anglo-Saxons, the spread of the Slavs, and the adventures of the Vikings. Now brought completely up to date with all the latest findings from the fast-moving fields of genetics, DNA, and dating, Jean Manco's highly readable account weaves multiple strands of evidence into a startling new history of the continent, of interest to anyone who wants to truly understand Europeans' place in the ancient world.

Ancestral Journeys: The Peopling of Europe from the First Venturers to the Vikings (Revised and Updated Edition) OECD Publishing

Communication in Health Organizations explores the communication processes, issues, and

concepts that comprise the organization of health care, focusing on the interactions that influence the lives of patients, health professionals, and other members of health institutions. This book integrates scholarship from communication, medicine, nursing, public health, and allied health, to provide a comprehensive review of the research literature. The author explains the complexities and contingencies of communication in health settings using systems theory, an approach that enhances reader understanding of health organizing. The reader will gain greater familiarity with how health institutions function communicatively, and why the people who work in health professions interact as they do. The text provides multiple opportunities to analyze communication occurring in health organizations and to apply communication skills to personal experiences. This knowledge may improve communication between patients, employees, or consumers.

Understanding and applying the concepts discussed in this book can enhance communication in health organizations, which ultimately benefits health care delivery. Communication in Health Organizations offers students, researchers, and health practitioners a unique multi-disciplinary perspective that invites stimulating reflection, discussion, and application of communication issues affecting today's health system.

Colin and the Gladiators Springer

Caillou isn't ready to go to sleep yet. Good thing Daddy is there to read him a story. Bath books are a fun way to introduce little ones to the joy of reading.

My First Sound Book John Wiley & Sons

This stunning book offers an introduction to and an exceptional view of an imposing collection of arts from across the Islamic world, highlighting outstanding examples of design, workmanship and craft in paintings and manuscripts, calligraphy, metalwork, ceramics, jade, glass, wood and ivory. The book opens with an explanation of the characteristics common to artistic creativity stretching back to the seventh century, from Spain to Indonesia. Works of superlative quality are then organised into chapters relating to central themes such as religion and belief, the supernatural and natural worlds, feasting, the hunt, war, music and power. The author explores each magnificent artwork in turn, providing cultural context and pointing out special features. By showing the complete artwork as well as enlarged details - sometimes virtually invisible to the naked eye - intriguing comparisons can be drawn and juxtapositions made between seemingly unrelated media. The selection of illustrations evokes the hand and eye of the most accomplished artists of the Islamic world.

Photographs Métiers de la santé - IBODE - Infirmier - Révision et entraînement

This book shows how phenomenology of the social sciences differs from positivistic approaches, and presents Schutz's theory of relevances--a key feature of his own phenomenology of the social world. It begins with Schutz's appraisal of how Husserl influenced him, and continues with exchanges between Schutz and Eric Voegelin, Felix Kaufmann, Aron Gurwitsch, and Talcott Parsons. This book presents, for the first time, Schutz's incisive criticisms of T.S. Eliot's theory of culture.
