Non-

member. \$80.00. Design Guide 10

provides guidance for the design of

temporary lateral support systems and

components for low-rise buildings.

Included are prescriptive systems for

temporary bracing as well as guidance to

develop structural details that are

inherently erectable. The design guide has

been updated to the current 2016 AISC S

pecification and the 15th Edition Steel

Construction Manual, and design examples

are provided in greater detail in this

edition. *Design Guide 10: Erection Bracing*
