Anti-Semitism and the Holocaust OUP Oxford

This book explores the work and legacy of Professor David Cesarani OBE, a leading British scholar and expert on Jewish history who helped to shape Holocaust research, remembrance and education in the UK. It is a unique combination of chapters produced by researchers, curators and commemoration activists who either worked with and/or were taught by the late Cesarani. The chapters in this collection consider the legacies of Cesarani's contribution to the discipline of history and the practice of public history. The contributors offer reflections on Cesarani's approach and provide new insights into the study of Anglo-Jewish history, immigrants and minorities and the history and public legacies of the Holocaust.

Histories of the Holocaust Bloomsbury Publishing

The genocide of Jewish and non-Jewish civilians perpetrated by the German regime during World War Two continues to confront scholars with elusive questions even after nearly seventy years and hundreds of studies. This multi-contributory work is a landmark publication that sees experts renowned in their field addressing these questions in light of current research. A comprehensive introduction to the history of the Holocaust, this volume has 42 chapters which add important depth to the academic study of the Holocaust, both geographically and topically. The chapters address such diverse issues as: continuities in German and European history with respect to genocide prior to 1939 the eugenic roots of Nazi anti-Semitism the response of Europe's Jewish Communities to persecution and destruction the Final Solution as the German occupation instituted it across Europe rescue and rescuer motivations the problem of prosecuting war crimes gender and Holocaust experience the

persecution of non-Jewish victims the Holocaust in postwar cultural venues. This important collection will be essential reading for all those interested in the history of the Holocaust.

The History of the Baltic States, 2nd Edition Columbia University Press

Any journey with Alexander Theroux is an education. Possessed of a razor-sharp and hyperliterate mind, he stands beside Thomas Pynchon as one of the sharpest cultural commentators of our time. So when he decided to accompany his wife — the artist Sarah Son-Theroux — on her Fulbright Scholarship to Estonia, it occasioned this penetrating examination of a country that, for many, seems alien and distanced from the modern world. For Theroux, the country and its people become a puzzle. His fascination with their language, manners, and legacy of occupation and subordination lead him to a revelatory examination of Estonia's peculiar place in European history. All the while, his trademark acrobatic allusions, quotations, and digressions — which take us from Hamlet through Jean Cocteau to Married... with Children — render his travels as much internal and psychical as they are external and physical. Through these obsessive references to Western culture, we come to appreciate how insular the country has become, yet also marvel at its fierce individuality and preternatural beauty — such is the skill of Theroux's gaze. This travelogue of his nine months abroad also brims with anecdotes of Theroux's encounters with Estonian people and — in some of its most bitterly comedic episodes — his fellow Americans whom he at times feels more alienated from than the frosty, humorless Europeans. Estonia: A Ramble Through the Periphery is as biting and satirical as it is witty and urbane; as curious and lyrical as it is brash and irreverent. It marks a new highlight in an already stellar career and a book that continues Fantagraphics' exceptional line of prose works.

Racial Science in Hitler's New Europe, 1938-1945 U of Nebraska Press

Using the framework of genocide, this volume analyzes the

patterns of persecution of the Roma in Nazi-dominated Europe. Detailed case studies of France, Austria, Romania, Croatia, Ukraine, and Russia generate a critical mass of evidence that indicates criminal intent on the part of the Nazi regime to destroy the Roma as a distinct group. Other chapters examine the failure of the West German State to deliver justice, the Romani collective memory of the genocide, and the current political and historical debates. As this revealing volume shows, however inconsistent or geographically limited, over time, the mass murder acquired a systematic character and came to include ever larger segments of the Romani population regardless of the social status of individual members of the community.

[The Wonder of Their Voices](#) Routledge

How both the Soviet Union and the United States manipulated and weakened the drafting of the United Nations Genocide Convention treaty in the midst of the Cold War.

[The Jews, the Holocaust, and the Public](#) Routledge

This book is novel not only in its theoretical framework, which places racialisation in post-communist societies and their modernist political projects at the centre of processes of global racism, but also in being the first account to examine both these new national contexts and the interconnections between racisms in these four regions of the Baltic states, the Southern Caucasus, Central Asia and Belarus, Moldova and Ukraine, and elsewhere. Assessments of the significance of the contemporary geopolitical contexts of armed conflict, economic transformation and political transition for racial discourse are central themes, and the book highlights the creative, innovative and persistent power of contemporary forms of racial governance which has central significance for understanding contemporary societies. The book will be of interest to scholars and students in the areas of racism and ethnicity studies. "What an important and much-needed addition to the growing, but still grossly insufficient, body of work on Soviet racial thinking and its impact on Soviet and post-Soviet racisms. At the time of renewed racial tensions in the West and

the growing racial anxieties underlying a variety of nation-building projects in the former Soviet spaces it is important to understand the often ignored linkages between Communist paternalism and Western views of race and racial difference. Even though its focus remains the former Soviet Union this book contains a valuable analytical toolkit for the scholars of race and racism across political and geographical boundaries." -Maxim Matusevich, Seton Hall University, USA "Post-Soviet Racisms is the first comprehensive comparative study of the politics of race in post-Soviet states. Why do racialising or overtly racist theories at times become central to the construction of post-Soviet identities? How do racisms of the dominant national groups and minorities compare? How does the process of the transnational circulation of racist and racialising discourses work? These are some of the important questions which are addressed in this ground-breaking book that enriches our understanding of the complexity of the current developments in the region." -Vera Tolz, University of Manchester, UK

A Nazi Past U of Nebraska Press

The eleven essays that comprise this book offer an integrated perspective on Nazi policies of mass murder. Drawing heavily on primary sources from European and American archives, the collection of essays provides novel interpretations of Nazi policies vis-à-vis ethnic, religious, and sexual minorities in the German-occupied territories, specifically Eastern Europe. The essays printed in this volume advance two main theses, drawing a line under the Functionalist-Intentionalist debate regarding the origins of Nazi genocide. In their dealing with the "lesser races," the Nazis proved more flexible and less single-minded than has been conventionally believed. Faced with what they saw as a temporary military setback, the Nazis were willing to renegotiate their murderous policies, granting certain concessions to the minority groups otherwise slated for destruction. In the long run, however, the Nazis never abandoned the ideology of racial exclusiveness, which had contributed to their ultimate defeat. Another thesis concerns the complex ethno-political landscape of Eastern Europe that came under Nazi domination. German occupation authorities encouraged ethnic rivalries and grievances, which trace back to the Austro-Hungarian and Russian Empires and beyond. Hobbesian war of all against all that had ensued made it easier for the Nazis to apply a divide-and-rule

policy. It also provided a fertile ground for collaboration, specifically in the mass murder of Jews. The book will appear to both academic and non-academic audiences interested in the subjects as diverse as genocide, ethno-nationalism, and minority studies.

Murder Without Hatred ABC-CLIO

Estonia is perhaps the only country in Europe that lacks a comprehensive history of its Jewish minority. Spanning over 150 years of Estonian Jewish history, *On the Margins* is a truly unique book. Rebuilding a life beyond so-called Pale of Jewish Settlement in the Russian Empire, the Jewish cultural autonomy in interwar Estonia, and the trauma of Soviet occupation of 1940-41 are among the issues addressed in the book but most profoundly, the book wrestles with the subject of the Holocaust and its legacy in Estonia. Specifically, it examines the quasi-legal system of murder instituted in Nazi-occupied Estonia, confiscation of Jewish property, and Jewish forced labor camps and develops an analysis of the causes of collaboration during the Holocaust. The book also explores the dynamics of war crimes trials in the Soviet Union since the 1960s and so-called denaturalization trials in the United States in the 1980s. The haunting memory of Soviet and Nazi rule, the book concludes, prevents a larger segment of today's Estonian population from facing up to the Holocaust and the universal message that it carries.

Post-Soviet Racisms OUP USA

A ground-breaking study that looks at why European nations sent troops to take part in Hitler's invasion of the Soviet Union.

The Soviet Union and the Gutting of the UN Genocide Convention U of Nebraska Press

"Based on information from a top-secret 2006 Justice Department report, this is the first book to explore the lives of Nazi fugitives sheltered and protected in the United States and elsewhere."-- Provided by publisher.

Soviet Russians under Nazi Occupation Bloomsbury Publishing

"Nothing seems more important and meaningful to survivors than to share their experiences. In this volume, the reader will find memories that will enrich his or her understanding of an era filled with pain and anguish."---Elie Wiesel, Nobel Peace Prize-winning author of *Night* --

A Satellite Empire Cambridge Scholars Publishing

In this detailed study of Estonians' role in the Holocaust, Anton

Weiss-Wendt casts light on a largely unexplored subject. A country known for its benevolent treatment of ethnic minorities, Estonia had a small number of indigenous Jews, and anti-Semitism existed on a relatively limited scale. However, many ethnic Estonians, acting as auxiliary security forces under the guidance of the German security police, participated in the murder of several thousands of Estonian, Czech, and German Jews. Weiss-Wendt investigates these acts of genocide by posing the simple question: what prompted the Estonians to cooperate with the Nazis? He argues that the actions were voluntary but that the reasons varied. Narrating the history of Estonia's involvement, Weiss-Wendt presents lucid explanations regarding the relationships between nation building, mass violence, and the brutal effects of authoritarian oppression on occupied states. The first book-length exploration of this aspect of the Holocaust, *Murder Without Hatred: Estonians and the Holocaust* enriches our knowledge of ethnic violence and reinvigorates current debates over the roots and operation of the Holocaust.

Estonia Springer

Appreciating the power of language, and how discriminatory words can have deadly consequences, is pivotal to our understanding of the Holocaust. Engaging with a wealth of primary sources and significant Holocaust scholarship, *Anti-Semitism and the Holocaust* traces the historical tradition of anti-Semitism to explore this in detail. From religious anti-Semitism in ancient Rome to racially-led anti-Semites focused on building superior nation-states in 19th-century Europe to Hitler's vitriolic attacks, Griech-Poelle analyzes how tropes and stereotypes incited suspicion, dislike and hatred of the Jews – and, ultimately, how this was used to drive anti-Semitic feeling toward genocide. Crucially, this 2nd edition sheds further light on the everyday experience of ordinary Germans and Jews under the Nazi regime, with new chapters examining the role of the Christian Churches in Hitler's persecution of the Jews and those who participated in rescue work and resistance more broadly. With new illustrations, a detailed glossary and up-to-date further reading suggestions and questions, this 2nd edition provides a concise and lucid survey of European Jewry, the Holocaust, and the language of anti-Semitism.

On the Margins Taylor & Francis

Of the three categories that Raul Hilberg developed in his analysis

of the Holocaust—perpetrators, victims, and bystanders—it is the last that is the broadest and most difficult to pinpoint. Described by Hilberg as those who were “once a part of this history,” bystanders present unique challenges for those seeking to understand the decisions, attitudes, and self-understanding of historical actors who were neither obviously the instigators nor the targets of Nazi crimes. Combining historiographical, conceptual, and empirical perspectives on the bystander, the case studies in this book provide powerful insights into the complex social processes that accompany state-sponsored genocidal violence.

Romania and the Holocaust Syracuse University Press

Why is Eastern Europe still different from Western Europe, more than a quarter-century after the collapse of Communism? A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe's tortured 20th century. Eastern Europe emerged in 1918 as the 'lands between', new states whose weakness vis-à-vis Germany and Soviet Russia soon became obvious. The region was the main killing-field of the Second World War, which visited unimaginable horrors on its inhabitants before their 'liberation' by the Soviets in 1945. The imposition of Communist dictatorships on the region, ironically, only deepened Eastern Europe's backwardness. Even in the post-Communist period, its problems continue to make it a fertile breeding-ground for nationalism and political extremism. A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation; it looks at the ways in which the region has served as a giant test-tube for political experimentation and, in particular, at the enduring strength of nationalism, which since 1989 has re-emerged more virulent than ever. This book is the essential textbook for any student of 20th-century Eastern Europe.

Eradicating Differences University Press of Kentucky

Satellite Empire is an in-depth investigation of the political and social history of the area in southwestern Ukraine under Romanian occupation during World War II. Transnistria was the only occupied Soviet territory administered by a power other than Nazi Germany, a reward for Romanian participation in Operation Barbarossa. Vladimir Solonari's invaluable contribution to World War II history focuses on three main aspects of Romanian rule of

Transnistria: with fascinating insights from recently opened archives, Solonari examines the conquest and delimitation of the region, the Romanian administration of the new territory, and how locals responded to the occupation. What did Romania want from the conquest? The first section of the book analyzes Romanian policy aims and its participation in the invasion of the USSR. Solonari then traces how Romanian administrators attempted, in contradictory and inconsistent ways, to make Transnistria "Romanian" and "civilized" while simultaneously using it as a dumping ground for 150,000 Jews and 20,000 Roma deported from a racially cleansed Romania. The author shows that the imperatives of total war eventually prioritized economic exploitation of the region over any other aims the Romanians may have had. In the final section, he uncovers local responses in terms of collaboration and resistance, in particular exploring relationships with the local Christian population, which initially welcomed the occupiers as liberators from Soviet oppression but eventually became hostile to them. Ever increasing hostility towards the occupying regime buoyed the numbers and efficacy of pro-Soviet resistance groups.

Children during the Holocaust Cornell University Press

Estonia is perhaps the only country in Europe that lacks a comprehensive history of its Jewish minority. Spanning over 150 years of Estonian Jewish history, "On the Margins" is a truly unique book. Rebuilding a life beyond so-called Pale of Jewish Settlement in the Russian Empire, the Jewish cultural autonomy in interwar Estonia, and the trauma of Soviet occupation of 1940–41 are among the issues addressed in the book but most profoundly, the book wrestles with the subject of the Holocaust and its legacy in Estonia. Specifically, it examines the quasi-legal system of murder instituted in Nazi-occupied Estonia, confiscation of Jewish property, and Jewish forced labor camps and develops an analysis of the causes of collaboration during the Holocaust. The book also explores the dynamics of war crimes trials in the Soviet Union since the 1960s and so-called denaturalization trials in the United States in the 1980s. The haunting memory of Soviet and Nazi rule, the book concludes, prevents a larger segment of today's Estonian population from facing up to the Holocaust and the universal message that it carries.

Murder Without Hatred Central European University Press

Children during the Holocaust, from the United States Holocaust

Memorial Museum's Center for Advanced Holocaust Studies, tells the story of the Holocaust through the eyes, and fates, of its youngest victims. The ten chapters follow the arc of the persecutory policies of the Nazis and their sympathizers and the impact these measures had on Jewish children and adolescents—from the years leading to the war, to the roundups, deportations, and emigrations, to hidden life and death in the ghettos and concentration camps, and to liberation and coping in the wake of war. This volume examines the reactions of children to discrimination, the loss of livelihood in Jewish homes, and the public humiliation at the hands of fellow citizens and explores the ways in which children's experiences paralleled and diverged from their adult counterparts. Additional chapters reflect upon the role of non-Jewish children as victims, perpetrators, and bystanders during World War II. Offering a collection of personal letters, diaries, court testimonies, government documents, military reports, speeches, newspapers, photographs, and artwork, Children during the Holocaust highlights the diversity of children's experiences during the nightmare years of the Holocaust.

Contested and Shared Places of Memory Central European University Press

Intermarriage from Central Europe to Central Asia examines the practice and experience of interethnic marriage in a range of countries and eras, from imperial Germany to present-day Tajikistan. In this interdisciplinary volume Adrienne Edgar and Benjamin Frommer have drawn contributions from anthropologists and historians. The contributors explore the phenomenon of intermarriage both from the top down, in the form of state policies and official categories, and from the bottom up, through an intimate look at the experience and agency of mixed families in modern states determined to control the lives and identities of their citizens to an unprecedented degree. Contributors address the tensions between state ethnic categories and the subjective identities of individuals, the status of mixed individuals and families in a region characterized by continual changes in national borders and regimes, and the role of intermarried couples and their descendants in imagining supranational communities. The first of its kind, Intermarriage from Central Europe to Central Asia is a foundational text for the study of intermarriage and ethnic mixing in Eastern Europe and

Eurasia.

Visualizing and Exhibiting Jewish Space and History U of Nebraska Press

This book offers a survey of the encounter between the Third Reich and European Jewry. Pointing out the difficulties historians face in interpreting the ever-expanding documentary record, it includes treatment of the role of non-Germans in the Holocaust,

consideration of the much-debated nexus between the Holocaust and modernity, and discussion on how 'the Holocaust' developed as a distinct historical topic. Fully updated, this new third edition incorporates the latest scholarly findings with expanded treatment of gendered aspects of the Holocaust, the Holocaust's world historical contexts, the long-term history of Jewish-Christian relations, and thinking about the Holocaust's contemporary relevance, as well as additional documents reflecting recent

archival discoveries. Offering a concise narration that appeals to both the intellect and the emotions, the book enables students to gain a real understanding of the events of this catastrophic time. Including a useful selection of original documents (many never before anthologised in English), a chronology, glossary, and 'who's who', David Engel's book will be welcomed by anyone trying to get to grips with this complex and far-reaching subject.
